

Real read set assembly results

A. Assembly status

empty: assembler finished without producing any sequence

incomplete: assembly had <99% chromosome contiguity

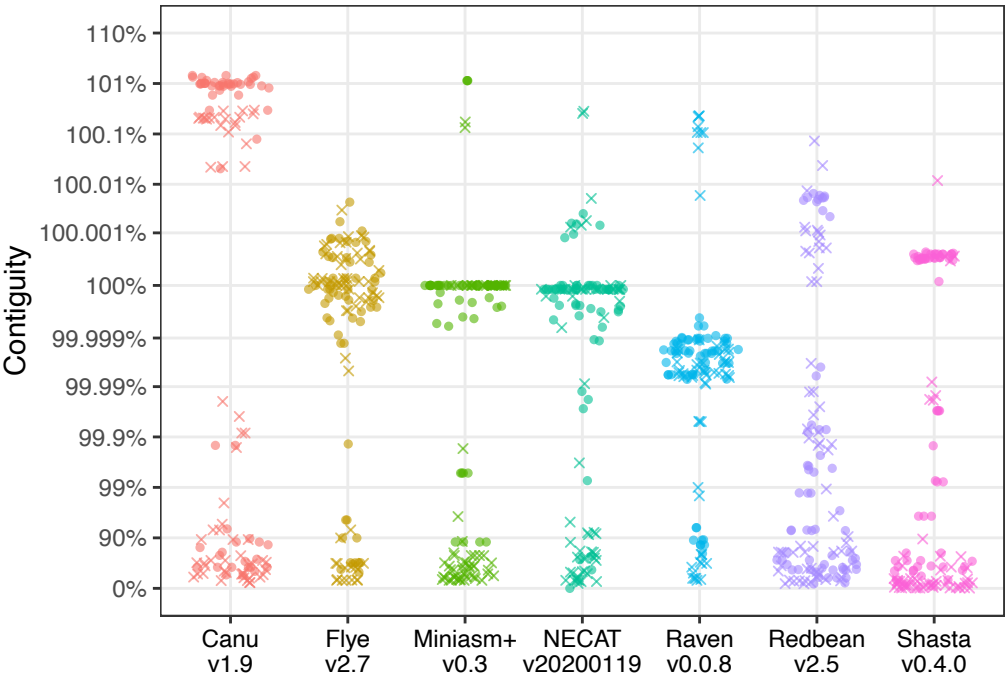

complete chromosome: assembly had >99% chromosome contiguity but plasmids at <99% contiguity

fully complete: assembly had all replicons at >99% contiguity

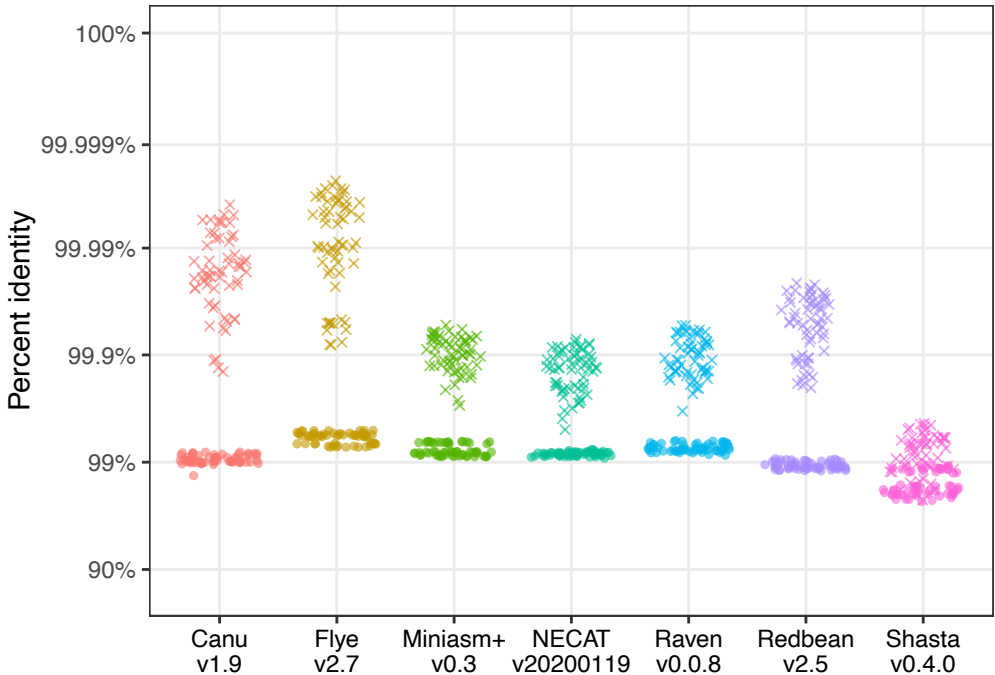

Platform

- ONT MinION
- × PacBio RSII

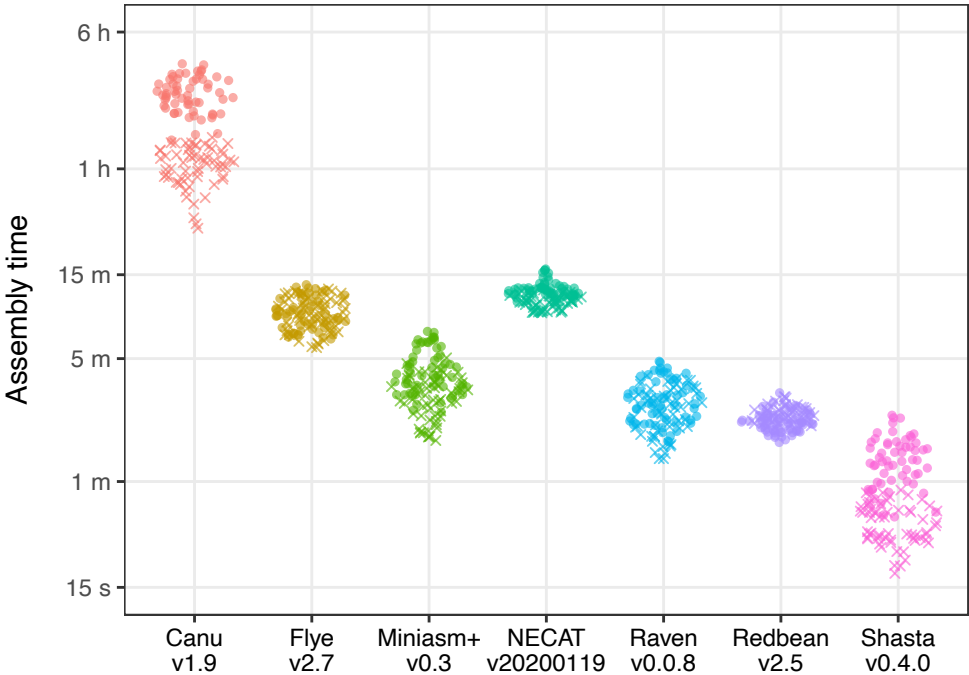

B. Chromosome contiguity

C. Chromosome identity

D. Runtime

E. RAM usage
